SID UPDATE

In recent weeks there has been an increase in vandalism around the town and sadly two Speed Indicator Devices (SIDs) have been victims to this. This means both SIDs are currently out of action and awaiting complicated repairs. Regrettably this could have a negative effect on the traffic speeds along the town's main thoroughfares. If you see anyone tampering with this equipment, please report it to us, or if appropriate dial 999.

These devices help keep us all safe!

INCONSIDERATE PARKING

We all know that finding a parking space is becoming increasingly difficult but the Town Council is receiving a number of reports recently of inconsiderate parking on pavements and grass verges. It is an offence for a parked car to cause an obstruction to others, for example, by blocking a pathway. This can put pedestrians - especially those with disabilities or using pushchairs - in danger. It can also cause access issues for emergency services - with potential fatal consequences. The Town Council has raised these issues with Dorset Police, Dorset Council and the DVLA. Please think before you park.
