

LYTCHETT MINSTER AND UPTON TOWN COUNCIL: INFORMATION REGARDING BURIALS FOR WIDER CIRCULATION

Lytchett Minster and Upton Town Council will observe advice given by Government to the Burials sector and will introduce restrictions to the number of people attending burials at our cemetery in Upton.

Taking account of Government guidance to limit the spread of Coronavirus and to protect the public and our staff operating this critical service, the following measures will apply from 25 March 2020.

The attendance of family and friends at burial services will be restricted to 8 people, plus Funeral Directors staff.

We appreciate that this will be distressing for the bereaved. When the situation improves, the bereaved affected by this restriction will have the opportunity of holding another service at the graveside should they wish.

Funeral Directors have been advised of this action and will be in touch with families to help make necessary arrangements. The bereaved should contact their Funeral Director for further advice.

Restrictions may change dependent upon future Government guidance.

Our main office is closed but emails and contact via the website is the way to contact to staff.
